PRESS RELEASE

NEW FINISHES FOR THE LN01A ACTIVE SPEAKER LIMITED EDITION

For the summer 2020, TRIANGLE offers its amplified bookshelf speaker LN01A in two new finishes for a brand-new look: Eggplant & Deep Blue.

It is the result of a research to combine TRIANGLE's historical acoustic expertise and the current interior design trends.

These new finishes are based on aesthetics and sound performance. The LN01A becomes a true item, complying with the latest trends and offering a connected and powerful sound, characteristic of TRIANGLE.

A DELIGHT FOR THE EYES AND THE EARS

Offering elegant and timeless colors, the beautiful eggplant and deep blue shades bring a dynamic touch to your decor. 100 pairs of each finish are available in this limited edition.

Thanks to the Active Series technology, it is possible to listen to music anywhere in the house.

MUSICALITY & MODERNISM

The eggplant and deep blue finishes are also available for the range's dedicated turntable.

Developed by Pro-ject, this turntable is easy to install and can be directly connected to the speakers thanks to the integrated phono input. With this colorful and trendy set, you can enjoy any 33 and 45 rpm records, powerful, hi-fi quality sound (2x50W), and a splash of color that matches with your interior.

THE ACTIVE SERIES TECHNOLOGY

Becoming a true decoration object, the LN01A speakers benefit from the active technology for a high-resolution, connected sound.

Bluetooth

Vinyle

Home Cinema

The LN01A active speakers have various connection opportunities in order to enjoy music from any source (Bluetooth AptX, RCA, jack 3.5, optical, phono, as well as a subwoofer output for TV). They are equipped with a 2x50W Class D amplifier and have a wide range of connectors to fit all you needs.

They are compact with a minimalist but modern design and benefit from the acoustic TRIANGLE manufacture know-how. They incorporate a 25mm fabric dome tweeter and a 13 cm concave medium-bass speaker for a round, warm and detailed sound, unique to TRIANGLE. They are supplied with a remote control, power cable and speaker cable for stereo to easily stream music throughout home.

ABOUT TRIANGLE

TRIANGLE has been designing, making and assembling high quality speakers for over 40 years with one goal : to develop loudspeakers that reproduce the core Emotion of music with increasing precision and vitality.

The company maintains a long-lasting link with craftsmanship, emphasizing the know-how of its teams and a very high manufacturing requirement.
