BOREA ACTIVE

THE NEXT GENERATION OF WIRELESS SPEAKERS

ACTIVE BOREA BLUETOOTH SPEAKERS CONNECTED HI-FI

Boasting a worldwide success, the BOREA range now includes two new active and connected models in bookshelf format: the BR02 BT & BR03 BT speakers.

The Active BOREA speakers are genuine high-fidelity systems. Compact and all-in-one, they provide a rich audio and video experience: stream your music in high resolution

with Bluetooth aptX, reproduce the warm sound of a vinyl turntable, link your TV, or create a fuller experience with the addition of a subwoofer.

TWO FORMATS, TWO STYLES
A MODEL FOR EVERYONE

BR03 BT

Displaying power and character, you will be impressed by their energy.

Midrange/bass driver: 6.5 inches / 16.5 cm
Amplifier: 2 x 60 Watts
Recommended coverage area: Up to 40m²

BR02 BT

Compact and easy to integrate, they will reveal a soft and delicate sound.

Midrange/bass driver: 5 inches / 13 cm
Amplifier: 2 x 50 Watts
Recommended coverage area: Up to 25m²

NUMEROUS FEATURES, VAST POSSIBILITIES

The Active BOREA speakers have been designed for modern and versatile use.

They offer many possibilities to meet every need: ease of use with

Bluetooth aptX music streaming, a phono input to connect a vinyl turntable, an optical input for a TV screen and a SUB output for a subwoofer association.

BLUETOOTH 5.0 APTX LOW LATENCY

Designed to meet everyone's needs, this new amplifier features the latest generation of Bluetooth v5.0 technology.

It allows you to freely stream your music wirelessly from any Bluetooth device.

Enjoy high quality sound thanks to the aptX HD Low Latency codec, delivering audio processing based on up to 24 bits/48 kHz sampling rate.

VINTAGE FOR VINYL ENTHUSIASTS

The amplifier of the Active BOREA speaker integrates a MM Phono preamplifier, which allows you to connect your turntable directly to the active speaker and enjoy a warm sound when listening to your 33 & 45 rpm records.

In partnership with the famous Austrian manufacturer PRO-JECT, Triangle has also developed a turntable designed to create an elegant and uniform all-in-one package. The turntables will be available in 4 finishes in September 2022.

5 RETRO-CHIC FINISHES

Thanks to their 5 trendy finishes, in a retro-chic spirit, the Active BOREA speakers provide a delight for the ears and the eyes, boldly blending trendy colors and timeless woods.

Green Oak

An English touch with a contrasting oak finish and a British racing green color

Cream

Soft and bold color with a cream finish with beige accents.

Light Oak Blue

Elegance is assured with the combination of light oak and Bering Sea blue.

Light Oak

Soothing with the combination of light oak and neutral beige.

Black

Classic and subtle in ash black and gray

ELEGANCE & SOBRIETY

The oblong-shaped magnetic grilles reveal remarkable contrasts on the cabinetry, bringing a distinctive personality to each finish.

HOME THEATER FULLER EXPERIENCE WITH MOVIES & SERIES

Equipped with an optical or coaxial digital input, you can connect your TV to enjoy a rich and detailed sound.

Placed on each side of your screen, they provide high quality stereo sound.

There is also a SUB output to connect a subwoofer, such as the Tales 340 for a fuller experience.

PREMIUM RELIABLE CONSTRUCTION

The Active BOREA speakers are built in line with the rest of the range.

Made from layers of HDF, they also incorporate an innovative DVAS* system to absorb the vibrations generated by the movement of the bass drivers. This important research on the vibratory behavior of the speaker reinforces this notion of neutrality and clarity when listening.

They also benefit from TRIANGLE's latest generation of drivers, an EFS fabric dome tweeter combined and a midrange/bass driver in natural cellulose paper.

READY TO USE ACCESSORIES INCLUDED

The speakers are supplied with a remote control, allowing the speakers to be controlled from more than 15 meters away, regardless of obstacles (walls, furniture, etc.).

A 3m white OFC copper speaker cable, a 220V power cord and eight adhesive anti-slip feet for decoupling are also included

TO GO TO THE NEXT LEVEL

Optional

Dedicated speaker stands to place bookshelf speakers at ear level when seated: Compatible S01, S02 et S04 and available in Black and white*. (*See models and finishes available)
