

## FINISHES :

***The new BR04 was crafted to enhance the BR03, offering superior performance while maintaining a compact, affordable design.***

These efforts provide, upgraded performance especially in the bass, while retaining the qualities that made the BOREA range successful.

The BR04 integrates the EFS silk-dome tweeter and a cellulose pulp midrange/bass driver, ensuring clear vocals and natural warmth. The elegant design is available in six finishes, offering the flexibility to fit in any décor.

Additional improvements include a redesigned front bass-reflex port and an expanded cabinet, optimizing airflow for deeper, more controlled bass. The addition of double binding posts, combined with an upgraded crossover, enables bi-wiring and bi-amplification for enhanced sound precision.

With a frequency range from 44 to 22,000 Hz and a sensitivity of 90 dB, the BR04 is perfect for rooms from 10 to 40 m². It offers rich, detailed sound for both Hi-Fi and home theater setups, ensuring a versatile and immersive listening experience.
